Computer programing assignment

Ayan Polra

22 August 2025

1 Net sales with 10 percent discount

```c
#include <stdio.h>
```

int main()
float sales, discount, net_sales;

```c
printf("Enter Sales Amount: ");
```

```c
scanf("%f", &sales);
```

discount = 0.10 * sales;
$net_sales = sales - discount$;

```c
printf("Net Sales = %.2f\n", net_sales);
```

return 0;

2 output
