Computer programing assignment

Ayan Polra

21 August 2025

1 Grams to KG

```
#include <stdio.h>

int main()
float grams, kilograms;

  printf("Enter weight in Grams: ");

  scanf("%f", &grams);

kilograms = grams / 1000;

  printf("Weight in Kilograms = %.3f\n", kilograms);

return 0;
```
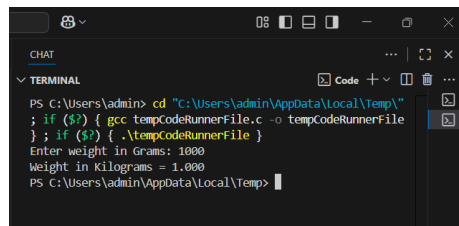

2 Output
